Universal Separators, Inc.  
PO Box 5185  
Madison, WI 53705

Dear Universal Separators, Inc:

We recently purchased our 3<sup>rd</sup> oil water separator from your company for our heat treating operations in Rockford, IL. Your equipment continues to provide exemplary service in the maintenance of our quenching fluids. The SmartSkim V3 unit that we purchased has provided for much cleaner parts and reduced smoke in our facility. Unlike the previous oil skimming/separating technologies that we had used, your equipment does a great job at strictly capturing the oil that we want removed from the quench tanks.

Thanks again for providing us with a quality product.

Regards,

Richard H. Sentowski
